

TRUE Token SWAP Instruction

兑换操作说明

一、使用True Wallet 转帐

1、获取官方收款的以太坊钱包地址（在TrueWallet与官网上有展示，确保准确），以下为官方地址：

Transfer using True Wallet

1、Get the officially assigned UNIQUE ERC20 collection address (It is shown on TrueWallet and on the official website to make sure it is accurate) , the following is the official address

0x6AC371048903B76B6D969c575Bc9d9bf28139B76

2、使用现有钱包（如TrueWallet/Imtoken/kcash等），把以太坊上的True转到官方收款地址

2、Use an existing wallet (such as TrueWallet/Imtoken/kcash, etc.) to transfer TRUE tokens to the official collection address

可以通过钱包将TRUE转入到TrueChain官方的以太坊钱包地址中，可以通过Imtoken、Kcash以及其他支持以太坊True的钱包进行转账，**转账时请仔细核对收款地址，如果地址输入错误，TRUE就会永久丢失且无法找回。**转账成功后需要等待TrueChain基金会的核实，在核实到账后，会在主网上线后10个工作日内给您TrueChain主网对应的钱包地址中转入相同数量的TrueChain主网币（TRUE）

二、查看兑换后的TrueChain主网币（True）

You can transfer the ERC20 TRUE tokens to the official unique collection address using any ERC20 wallet such as Imtoken and Kcash. **Please double check the address and make sure it is correct when perform the transaction. If the address is incorrect, you will lost you TRUE tokens which are not retrievable.** Once you complete the transaction, please wait for the TrueChain Foundation to confirm. You will receive the same amount of TrueChain mainnet TRUE tokens within 10 business days after The Mainnet Launch

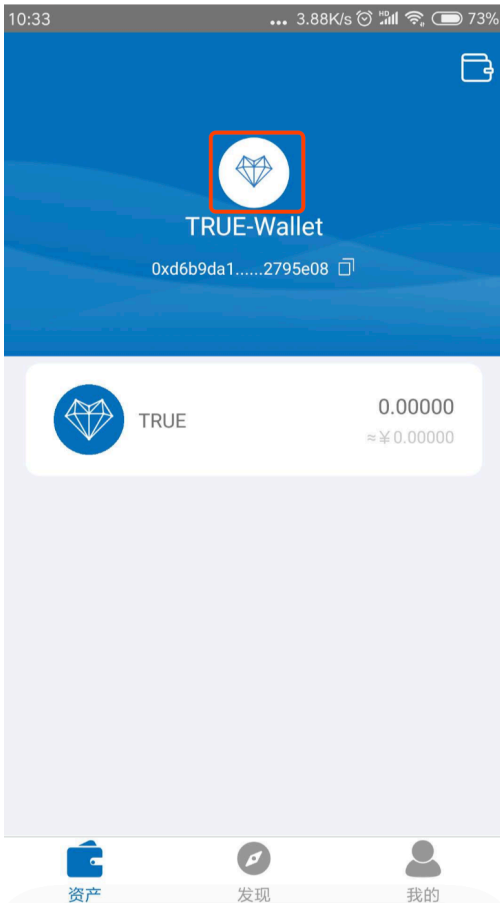

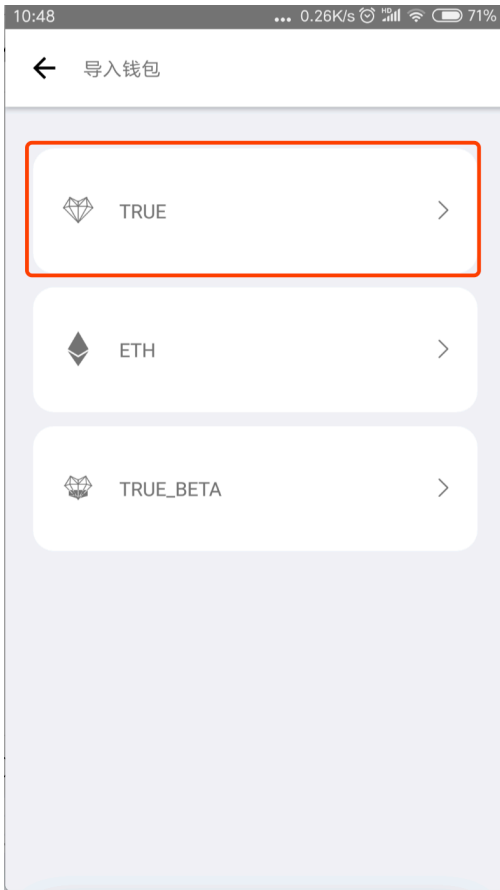

Check the TrueChain mainnet TRUE tokens after the swap.

主网币（TRUE）可以在True Wallet中查看。具体操作如下：

如果已经添加了转账的钱包，可以直接点击钱包管理界面中TRUE下方地址查看

TrueChain mainnet TRUE tokens can be viewed in the True Wallet. The detailed instructions as below:

If you already added the wallet that you did the transfer to the official unique collection address, you can click the TRUE address in the Wallet Management interface.

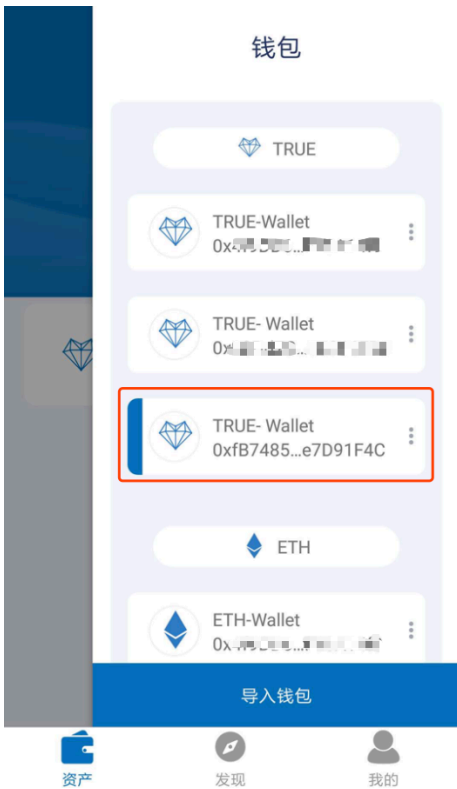

已经添加钱包，但True Wallet中没有添加原来转账的钱包，可以通过钱包管理界面的“导入钱包”来添加原有转账的钱包，在导入钱包过程中需要选择TRUE网络环境，导入成功后便可查看到

Some TRUE holders have used True Wallet already and have imported some wallets before, but didn't import the specific wallet that did the transfer to the official unique collection address. In this situation, you will see New TrueChain Mainnet Tokens after successfully import such wallet address from the wallet management interface

导入成功后默认就会在TrueChain主网环境下，可通过TrueChain主网图标进行分辨；在该界面就可以查看到钱包下方主网币

After successfully import of the wallet, it will be operated in the TrueChain mainnet environment. You can identify and differentiate the wallet from the token icons. Then you will be able to see your New TrueChain Mainnet Tokens

三、兑换记录查询

TRUE Mainnet Tokens Swap Record Query

因为兑换是批量合约转帐，因此在钱包地址下的交易记录与区块链浏览器中不做显示，基金会提供“兑换查询”接口，直接从兑换合约中查询兑入与兑换状态。

The swap is completed as a bulk contract transfer, so the transaction record under the wallet address and the blockchain browser are not displayed. The TrueChain foundation provides the "swap result query" interface, which the status can be viewed from the exchange contract.

记录查询步骤如下：

- 1、在TRUE主网导入给官方打过币的钱包地址；
- 2、选择上面导入的钱包地址；
- 3、在发现中的“兑换查询”中查看兑换结果。

The query steps are as follows:

1. Import the wallet address that was used to transfer ERC 20 tokens to the official collection address, and select TRUE main network;
2. Select the wallet address imported above;
3. Check the swap status and result in the "swap result query" found.

TRUE主网兑换记录

0xf8748f...e7d91f4c

共计提交兑换 3 笔 共 0.9000 TRUE
已经完成兑换 2 笔 共 0.8000 TRUE

兑入时间	金额	状态
3月 29日 17:42:13	0.7000TRUE	已兑换
4月 9日 16:18:25	0.1000TRUE	待兑换
4月 9日 16:20:04	0.1000TRUE	已兑换

说明：兑换完成的TRUE资产需要在钱包中TRUE网络下的账户中查看。在钱包主页点击可以切换网络，或者在导入钱包时选择TRUE网络。
